Sackit Light APP

Pebble smart pendant can be switched on and operated with the Sackit Light app. The app can be downloaded from Apple App Store or Google Play.

1.Download the application on your device.

2. Once the download is complete, open the application.

3. Follow the in-app instructions to sign up or log in if you already have an account.

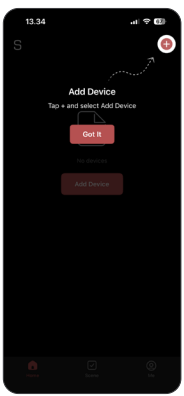

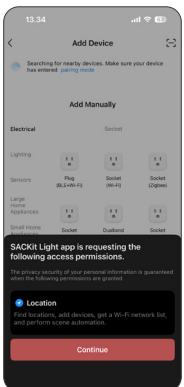

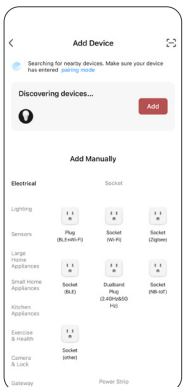

4. Once logged in, press the **+** icon to add a new device.

5. Approve the request to acces **Bluetooth** and **Locations** on your device.

6. When the 'Discovering devices'-notice appears press the **Add**-button.

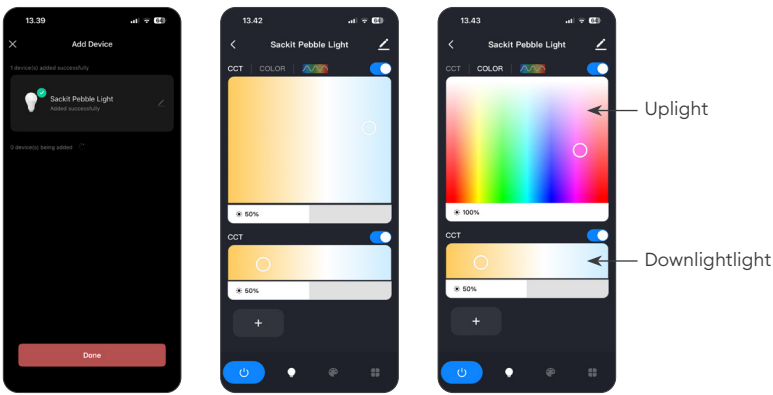

7. Choose **'Sackit Pebble Light'**. The lamp is now connected.

8. In the general light settings (**CCT**) control the brightness and temperature of the top and bottom light. The two lights can be controlled seperatly or together. In the color light settings (**COLOR**) control the color of

Preset Light Scenes

Pebble allows you to create and save up to three personalized *lighting presets* using the **Sackit Light app**. Each preset combines brightness levels, color temperatures, and color tones for the uplight and downlight, allowing you to create the perfect atmosphere for any occasion.

Once saved, your favorite lighting settings can be recalled without opening the app, simply by using your existing wall switch.

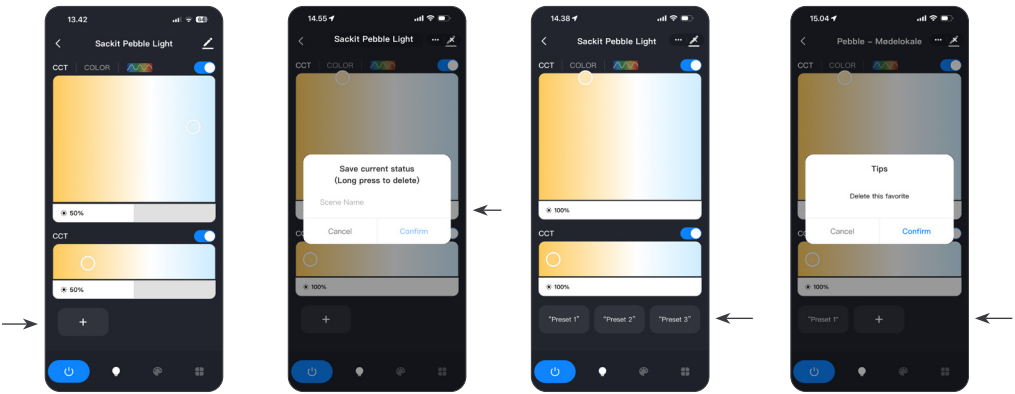

Pebble also features a memory function that remembers your most recent lighting settings when switched off and back on.

Preset Step-by-step

Pebble smart pendant can be switched on and operated with the Sackit Light app.

The app can be downloaded from Apple App Store or Google Play Store.

Step 1:
Tab the "+"in of the control screen

Step 2:
Name your preset and save it. Save up to 3 presets.

Step 3:
Presets will appear in the control screen

Step 4:
Tab an hold to delete current presets

Multiple Users

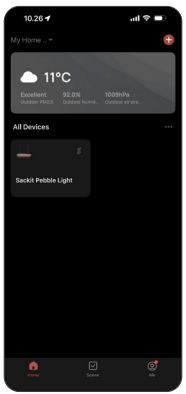

Pebble can be controlled by multiple users through the Sackit Light app. - By sharing access through the **Home Management feature**, family members or other users can control the same lamp from their own smartphones, making it easy for everyone to enjoy personalized lighting.

Multipe Users Step-by-step

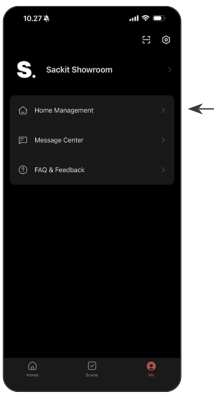

Create a shared home and allow multiple users acces to the Sackit Pebble Light.

All users can add scenes and set personalized lighting as they wish.

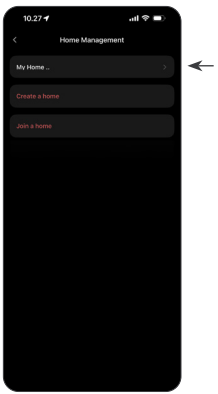

Step 1:

From main control screen, tab the *"Me"* in screen bottom

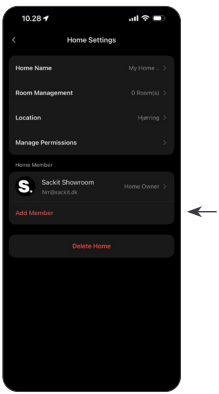

Step 2:

Tab *"Home management"*

Step 3:

Tab *"My Home"*

Step 4:
